KNOWLEDGE & EXPERIENCE

WHILE EVERY ASSIGNMENT IS UNIQUE,
THE GOALS ARE CONSISTENT...

About United Interiors

United Interiors specializes in providing furnishing environments that work and comprehensive project management. Our consultative services enable us to identify, address, and satisfy our clients' workplace requirements.

While every assignment is unique, the goals are consistent: a finished result that fits the client's aesthetic image, serves their functional needs, and meets their budget.

The UI team considers product knowledge and technical expertise as our foremost assets. Our thorough working familiarity of furniture alternatives enables us to deliver optimum results to our clients – especially as we partner with design professionals to propose effective furniture solutions.

“
...INTEGRATING ERGONOMICS, FUNCTION,
DURABILITY, AND AESTHETICS.
”

Integrating and Collaboration

United Interiors team members are uniquely qualified to find solutions that work well and integrate with each other. Our collaborative project planning process will assist you in achieving the perfect solution for any aspect of your project. From finding a product mix to proposing customized solutions, United Interiors works with you to find a comprehensive plan for your project, integrating ergonomics, function, financing, durability, and aesthetics.

Product Specification

United Interiors is committed to guiding you through this complex and sometimes confusing process, identifying products that are most appropriate to address your unique needs. Products we recommend meet the highest industry standards for durability, function, flexibility, and manufacturer warranty.

SMOOTH TRANSITIONS

“WORKING WITH YOUR ARCHITECT, DESIGN FIRM,
AND/OR FACILITIES DEPARTMENT...”

Facilities Planning

Working with your architect, design firm, and/or facilities department we can develop accurate plans for every area of your facility. Furniture plans for new installations, reconfigurations, or facility relocations are developed to include panel, compartment, and casegood details, along with electrical, telephone, data locations, and custom applications.

Contractor Assistance

Often in the course of a project you may require the services of additional contractors and licensed professionals such as architects, electricians, and data cabling experts. We have developed working relationships with a number of highly reputable service providers that we would be happy to recommend to you. We are also in touch with additional resources to meet your not-so-technical needs, such as greenery services, consultants, and others.

FUNCTION & BUDGET

“ WE ARE EXPERIENCED IN PLANNING AND
COORDINATING EFFICIENT INSTALLATIONS.... ”

Project Management

Recognizing that the final phases of your project can be disruptive to your everyday business operations, United Interiors takes pride in its ability to plan, manage, and stage product delivery and installation. We are experienced in planning and coordinating efficient installations by communicating with key personnel – contractors, design firms, building management – and your staff. Comprehensive drawings and timelines are prepared for you to maximize communication and minimize disruption.

Delivery and Installation

Great care is taken to ensure that product is installed to specification, inspected for defects or damage, and debris removed from the jobsite. With 100,000 square feet of warehouse storage and 90 installers available to us, no project is too large or too small.

INTEGRATED SOLUTIONS

...ACHIEVE A CONSISTENT FACILITY APPEARANCE,
OPTIMIZE USE OF SPACE, AND SAVE TIME AND MONEY.

Reconfiguration

Regardless of which furniture system you currently use, We can work with you to reconfigure the product to meet your changing needs. We will take a physical inventory of your product and provide accurate installation plans.

Standards Program

By utilizing a Standards Program you will achieve a consistent facility appearance, optimize use of space, and save time and money. UI will work with you to develop standards that allow employees to transfer easily between departments by carefully planning workstation layouts to serve a multitude of job functions. A Standards Program can virtually eliminate reconfigurations, as well as eliminate the necessity for keeping costly product inventory on hand.
