Productive

4K Ultra HD without
a 4K card!

Kensington®

SD4000 Universal USB Docking Station Enables 4K Ultra HD, even when your laptop doesn't have a 4K graphics card. As well as serving as a central hub and charger for all your peripherals, the dock provides Ultra HD (3840 × 2160) to a single 4K monitor or TV via an HDMI or DisplayPort connection. When using two monitors instead of one, the dock provides 2K resolution to each screen (2048 × 1152). There are three available USB 3.0 ports that support transfer speeds of up to 5 Gbps, including one that provides 2.1 amp fast charging for a tablet or smartphone. There's also a gigabit Ethernet port, so you have a reliable, wired network connection. Manufacturer's one-year warranty.

Super Secure

Professional grade security for
ultra-thin devices!

Kensington®

MiniSaver™ Mobile Lock With mobile devices getting slimmer and lighter, professional-grade security for ultra-thin devices is difficult to find. The MiniSaver Mobile Lock is the perfect security solution for modern ultra-thin devices like Ultrabooks and tablets that otherwise would be left vulnerable to theft when you're at your desk or on the go. It features Cleat™ Locking Technology, which can be inserted into any device that includes either the Kensington Security Slot or the Kensington Mini Security Slot. The off-body design means the cleat won't interfere with adjoining cables and the push-button activation is simple to use and can be engaged without the key. The pivot and rotate cable offers better freedom of movement and eliminates awkward angles. It's also engineered from carbon steel, making it resistant to cutting and theft attempts.
