

# LEARN. GATHER. WORK.

Kimball® Learning

## FURNITURE FOR THE NEW WAY OF LEARNING.

On campuses around the world, educational spaces are becoming more like everyday spaces. The boundaries designating where people learn have blurred, and just as much discussion and collaboration happen in the spaces outside classrooms as they do in the classrooms themselves. Many spaces are being used as multi-purpose areas, so instructors and students expect furniture that's easy to reconfigure for different learning styles. They also expect furniture to work seamlessly with their technology to embrace the ways they learn and communicate. In terms of style, there's a shift toward the casual, creative atmosphere of cafés and other places where people come together naturally to form a sense of community.

Kimball Learning, has incorporated the needs and expectations of these ever-evolving education trends into the development of our product portfolio. You'll find flexible, collaborative, and technology-driven furnishings from classrooms to administrative offices and every secondary learning space in between.

# LEARN

What does an effective classroom look like? That all depends on how instructors and students choose to use it. Flexible furniture makes it easy to alternate from a traditional lecture setting to small groups, supporting a wide range of classroom activities.

Wish Task Chair, Guide Instructor Desk, Mascot Student Desk, Flip Nesting Chair, Stow Wall Panel, Stow Floor Storage, Xsede Media Cart

Priority Casegood, Stow Wall Panel, Wish Task Chair, Flip Nesting Chair, Dock Meeting Table, Alumma Task Chair, Stow Floor Storage, Xsede Benching, Bloom Lounge Chair, Footprint Storage

## LEARN

An interactive space like this frees instructors and students to move beyond the passive learning style of conventional classrooms toward a dynamic, interactive style that teaches the collaborative skills employers value. As the classroom of the future, our learning model encourages instructors to actively mentor and advise students during their group collaboration. Sliding whiteboards, writable table surfaces and multiple monitors create spaces to share ideas and provide optimal viewing for any position in a classroom configuration.

Thoughtful features give classroom furniture the flexibility to work with multiple settings and styles of learning. The flexibility of casters let people rearrange the room to suit their purposes, morphing easily from traditional configurations to team groupings. Stacking chairs and nesting tables make the space even more versatile, letting you tailor the number of seats to your needs or configure the room for active learning.

**Top Left:** Dock Training Table, Poly Mesh **Bottom Left:** Dock Training Table, Flip Nesting Chair **Right:** Wish Task Chair, Guide Instructor Desk, Poly Plastic, Mascot Student Desk, Stow Floor Storage, Traxx and Tiles

Technology integration makes media part of any lesson, allowing instructors or students to watch, browse, share information, or create content together. Choose a freestanding media wall to provide a natural meeting space that can be equipped with screens and whiteboards, or a small mobile cart to put technology wherever you need it. Multiple monitors ensure optimal viewing for all students and provide flexible room orientation to support any learning style.

**Right:** Beo Mobile Chair with Tablet Arm, Xsede Media Cart, Dock Training Table, Poly Plastic. Traxx and Tiles

## GATHER

There's a lot of learning happening outside the classroom today, making hallways, lounges, and other gathering places an even more important part of education. Equipping these spaces with versatile furnishings gives students and faculty the freedom to learn where, when, and how they want, without being limited to classroom time and availability. A mix of furniture makes the space welcoming for individual, one-on-one, or larger group use. Built-in power and connectivity support a full range of student activities.

The ideal gathering space is all about options. Individual work stations provide space for focused study, while tables and chairs support students sharing information or working on group projects. More casual settings with lounge furniture and booths welcome groups of various sizes, purposes, and privacy needs.

**Left:** Priority Benching, Wish Task Chair, Dock Training Table, Flip Nesting Chair, Boyd Lounge Seating, Dock Meeting Table, Stow Wall Panel **Top Right:** Teem Media Wall, Wish Stool, Dwell Ottoman, Dock Meeting Table, Villa Lounge Seating, Stow Floor Storage **Bottom Right:** Villa Shade Lounge, Dock Training Table, Xsede Benching, Alumma Task Chair

Today's learning can take the form of collaborative exchanges or heads-down, individual concentration. Study carrels create zones where it's easy to focus, with comfortable seating, ample workspace, privacy screens to reduce distractions, and a built-in power supply to keep students connected while they work.

**Left:** Priority Benching, Itsa Task Chair **Right:** Xsede Benching, Xsede Study Carrel, Hero Task Chair, Dwell Ottoman

## WORK

Administrative settings have become more collaborative, too. Along with casegoods and seating for traditional offices and conference rooms, there's a new demand for casual spaces where team members can interact and share ideas with each other, instructors, and students. Introducing team spaces doesn't have to mean crowding the room. By choosing flexible designs, such as storage areas that double as bench seating, you can offer multiple functions within the same footprint.

From seating to tables and storage, you can combine all of the elements to support your work, your way. Whether you want open plan furnishings to encourage teamwork, traditional offices to provide focus and privacy, or conference settings that welcome everyone to the table, Kimball Learning has a wide breadth of product offerings to meet your needs.

**Left Top:** Xside 180° Benching, Wish Task Chair, Dock Meeting Table **Left Bottom:** Dock Training Table, Alumma Task Chair, Stow Wall Panel, Stow Wall Storage, Dwell Lounge Seating **Right:** Stow Wall Panel, Footprint Worksurface and Column, Alumma Task Chair, Dwell Lounge
